

Ron Oliver's Biography

Ron Was born May 26, 1958 in Coronado Naval hospital California.
From the age of 6 months he started on a world travel with his parents.
I lived in the following places: Philippines in 1958 to 1961.

Bremerhaven Germany 1961-1964

Brandywine Maryland 1964- 1966

Kunitra Morocco 1966-1969

Yokohama & Misawa Japan 1969-1972

Pensacola FL. 1972-1976

I went into the army in 1976 and received my training as a plumber at Ft. Leonard Wood MO. I was sent off to Germany for 2 yr and 6 month and was discharged from the army. After the Military I work as a plumber in Pensacola, FL and as a cook for York Steak House as a cook and then manager. With York steak house I was transferred to Atlanta Ga. Then to Springfield VA in 2001 I move to San Diego, Ca.

I worked as a Maintenance man rehabbing apartment and in 1994 I started RJO Plumbing .

On August 6th of 1988, I married Kim Halle in Prescott AZ, in her Grandparent back yard then off to Whistler B.C. for a week of rest and relaxation. On Sept 4, 1991 we became proud parent of Jay Halle Oliver he changed our lives forever. Then on Oct 21, 1994 Ben Halle was born.

While owning RJO Plumbing I became involved with the San Diego Plumbing and Heating Association. I got involved as a board of director and moved my way up to Vice President. RJO plumbing was closed in Jan of 2003. I briefly worked for HPS Mechanical out of Bakersfield Ca doing government contract work. I did steam line replacement at MCRD and site work for refueling maintenance depot at Marine Corp air station Maramar. During that fall my wife called and said she wanted to move out of California, I said great you pick the spot and I'll check it out Madison area was her choice. Her Twin sister lives in Chicago but I didn't want to live there. We chose Sun Prairie because of location being close to things and not too crowded. Plus the athletic club was right down the street. In Feb I packed my truck and towed the extra car out with me to start a new life change. I left the wife and father-in-law to pack-up and come out in March of 2004.

I found a job with-out a problem but after 8 months things slowed down and I got laid off. I find this normal in this state when things are slow in construction. Once I was laid off I started thinking about working for myself, took 6 months off and started Oliver's Plumbing & Remodel. The Move and the Business was the best thing that could have happened to use.

I enjoy working in the community and a member of the Sun Prairie Lion's club, Rotary Club. Oliver's Plumbing also has sponsored Little League teams in Sun Prairie.
